1 TDLPRO

1.1 OVERVIEW

TDLPRO is a forecasting, planning and tracking application specifically designed for the Deloitte CBER CSOM team to manage their resources efficiently.

This document serves as the user guide for TDLPro.

2 ROLES

There are 4 user roles defined in TDLPRO. They are

Team Member	<ul style="list-style-type: none">• Review Planned Hours• Contractors enter actual hours• Update Skills
Project Manager	<ul style="list-style-type: none">• Create TDL, Users, Resources• Review Project Financials• Edit/Delete Hours/Cost
PMO	<ul style="list-style-type: none">• Create TDL, Users, Resources• Review/Report Financials• Modify Hours/Cost On Any Project• Import DTE• Export Raw Data
Administrator	<ul style="list-style-type: none">• Administrative privileges

3 NAVIGATION

3.1 LOGIN

TDLPro User is assigned a username, password and a user role by either the Administrator or the PMO team member. Username and password are emailed to individual team members.

1. User enters the username and password and click <Login> button to enter the TDLPro application

3.2 SIDE NAVIGATION BAR

Depending on the user role assigned, the user would see a different side navigation menu bar on the left side after logging to the application.

3.2.1 PMO role

3.2.2 PM ROLE

3.2.3 TEAM MEMBER

3.3 TOP NAVIGATION BAR

Logged in user full name is displayed on the top navigation bar.

3.4 IDENTIFYING VERSION

TDLPro version and the last updated date can be identified on the login screen.

3.5 LOGOUT

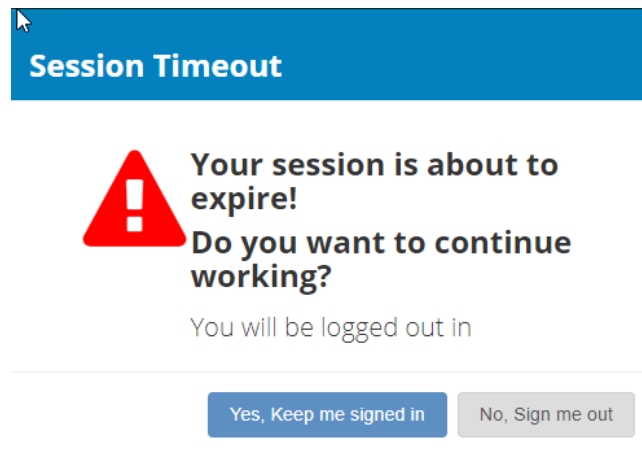

3.5.1 MANUAL LOGOUT

User can log out of the application by clicking <Logout> navigation item on the side navigation bar.

3.5.2 SESSION TIMEOUT

After certain minutes of inactivity, the system provides a warning about the session time out and user must save entries during that window period. Once timed out, all information that is unsaved is lost.

Notes: This feature needs more testing

4 USERS

Users are created to allow logging into TDLPro.

4.1 CREATE A NEW USER

Only a PMO role member can create a new user.

1. On the side navigation bar, select <Users>

2. A new report will all system users appear

4. Enter the following information
 - a. Role: Select one of the 4 roles for the user. See section 2 for details on roles
 - b. First Name: Enter first name of the user
 - c. Last Name: Enter last name of the user
 - d. User ID: Enter login user name for the user. Preference: (all lower case: start with first letter of the first name followed by the last name)
 - e. Password: Enter initial password for the user
 - f. Employee ID: A unique 6 digit employee ID. (Note employee id entered here should match the employee ID entered in Resource screen)
 - g. Enabled: Select this to make the user active.
5. Click <Save User> button to save the user information.
6. If any of the required field is not entered, the system will not allow you to save and will prompt you for missing information.
7. Click <Cancel> if you no longer want to save the new user information.
8. Once the user is created, please verify the new user in the report screen show in step 2.

4.2 EDIT AN EXISTING USER

Only a PMO role member can edit an existing user.

1. On the side navigation bar, select <Users>
2. A new report will all system users appear

Missing Users

FIRST NAME	LAST NAME	LOGIN ID	ROLE
<div><div></div></div>	<div><div></div></div>		
<div><div></div>Nazia</div>	<div>Abbas</div>	nabbas	Project Manag
<div><div></div>admin</div>	<div>admin</div>	admin	Administrator

- Once the user is identified, please click the pencil icon on the report to edit an existing user.
- Modify the user information and select <Save User> button.

- Please note that Password and Employee ID fields are masked for security purpose.
(Note: Contact TDLPro technical support team if you need assistance.)

4.3 DELETE AN EXISTING USER

It is highly recommended that this feature is not used. It is recommended to edit the user and uncheck the “Enabled” checkbox if the user needs to be flagged as inactive.

- If for whatever reason, user needs to be deleted, please navigate to user reports screen and click on the delete icon.

	FIRST NAME	LAST NAME	LOGIN ID	ROLE	STATUS	
	<input type="text"/>	<input type="text"/>				
	Nazla	Abbas	nabbas	Project Manager	Active	
	admin	admin	admin	Administrator	Active	

- User will be prompted with a “Are you sure” screen.

- Click “Confirm” button to delete the user.

4.4 MODIFY USER PASSWORD

At present, there is not s “Reset Password” feature by the user. Only a PMO can alter the password by editing the user information. This feature is under construction.

4.5 USER REPORT

4.5.1 ALL USERS

1. Please click “Download Report” on the report screen shown by selecting “Users” on the left side navigation menu.

2. System will export all entered users to an excel spreadsheet

4.5.2 MISSING USERS

Sometimes, Project Resources are created without a corresponding system user entry. Please click “Missing Users” button on the report screen to export a list of resources for whom the user entry is either missing or mismatching.

Note: Mismatch occurs when the EmployeeID entered in user screen does not match the employeeID entered in the resource screen.

5 RESOURCES

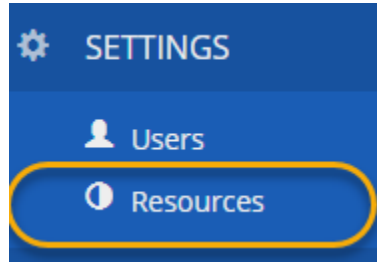

Resources are created to be added as Project Resources. Each resource is assigned a labor category and an associated rate.

Note: if a resource is billed as two different labor categories, they have to be entered as two independent resources in the system.

5.1 CREATE A NEW RESOURCE

Only a PMO role member can create a new user.

1. On the side navigation bar, select <Resources>

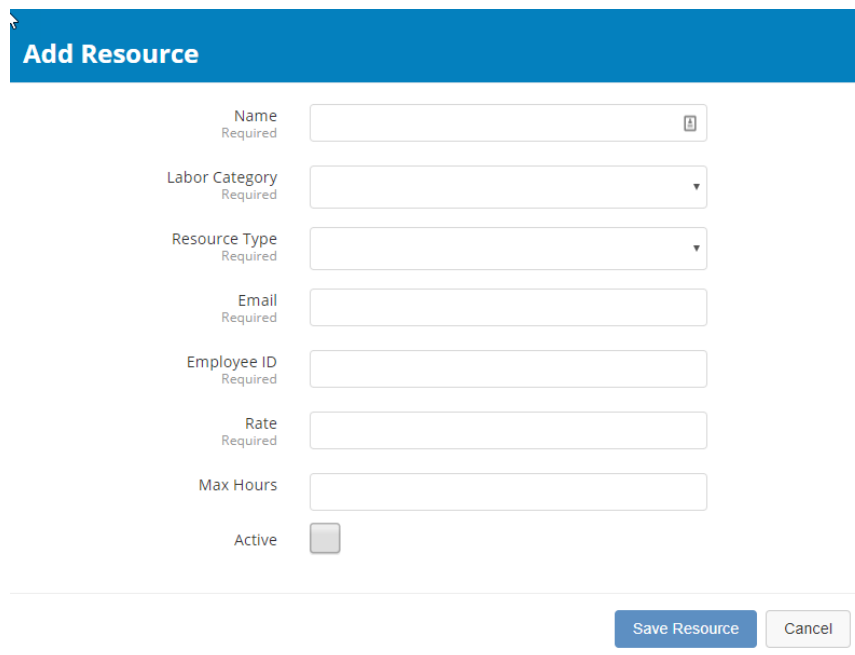

2. A new report with all project resources appear.

4. Enter the following information:
 - a. Name: Enter the full display user name: <<Last Name, First Name>>. This is the Project Resource name that will be displayed in all TDLPro screens
 - b. Labor Category: Please select one of the labor category from the drop down list. (see section 5.4 for additional details on adding/modifying labor category)
 - c. Resource Type: Select one of the 3 items in the dropdown list.
 - i. Contractor (refers to subcontractors on the team). Note: When a resource is assigned this type – the user will be able to enter actual project hours in the system.
 - ii. Deloitte – Consulting (Non UDSC Deloitte resources on the team)
 - iii. Deloitte – USDC
 - d. Email: enter a valid FDA or Deloitte email address. This email address will be used for all system generated email communication.
 - a. Employee ID: A unique 6 digit employee ID. (Note employee id entered here should match the employee ID entered in User screen)
 - e. Rate: Labor Category rate is entered here
 - f. Max Hours: Resource max capacity hours entered here. (Note: system usually flags hours in red if at any time the resource is allocated more than their capacity). This feature allows the system to identify part-time resources etc.
 - g. Active: Select this checkbox to keep the resource active. (Note: If a resource leaves the time, it is recommended that this checkbox is unchecked. Most reports on TDLPro only looks at active resources)
5. Click <Save Resource> button to save the resource information.

6. If any of the required field is not entered, the system will not allow you to save and will prompt you for missing information.
7. Click <Cancel> if you no longer want to save the new resource information.
8. Once the resource is created, please verify the new resource in the report screen show in step 2.

5.2 EDIT AN EXISTING RESOURCE

Only a PMO role member can create a new user.

1. On the side navigation bar, select <Resources>
2. A new report with all project resources appear.

- User will be prompted with a “Are you sure” screen.

3. Click "Confirm" button to delete the resource.

5.4 CREATE/MODIFY A NEW LABOR CATEGORY

At present, there is no UI for creating or modifying a labor category. Please contact TDLPro technical team for assistance.

6 TDL

A Technical Direction Letter (known as TDL) is how the client issues work order for Deloitte CBER CSOM team to perform work. This section describes how to create and manage TDL information.

6.1 CREATE A NEW TDL

Only a PM or a PMO team member can create a new TDL.

1. Create TDL can be triggered from either the Kanban screen

2. Or from the Search screen

Daily Operations / Create TDL

Create TDL

TDL Information

Name Required field	<input type="text" value="Enter TDL Name (45 chars limit)"/>
Project Manager Required field	<input type="text"/>
Category Required field	<input type="text"/>
TDL Type Required field	<input type="text"/>
CLIN Required field	<input type="text"/>
WBS Code	<input type="text" value="Enter WBS Code (45 chars limit)"/>

Planned Date Range Required field	<input type="text" value="Choose date"/> <input type="text" value="Choose date"/>
Budgeted Hours Required field	<input type="text" value="Budgeted Hours"/>
Budgeted Cost Required field	<input type="text" value="\$ Budgeted Cost"/>

Save TDL

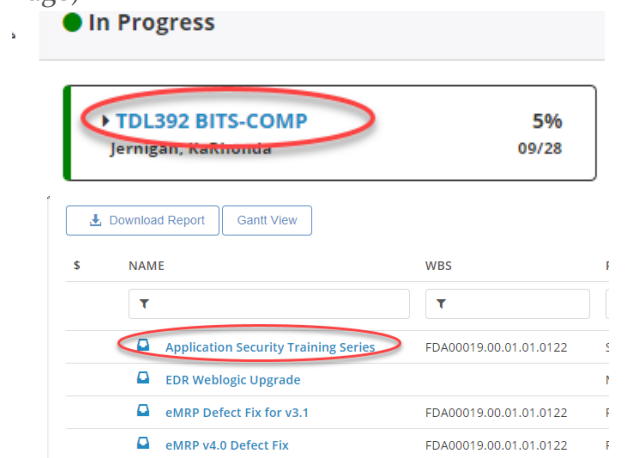

3. Enter the TDL information on the Create TDL Form
 - a. Name: Enter a 45 char limit – name of the TDL. (Note. It is recommended to use to the following naming convention:
 - i. TDLXXX – TDL Brief Description
 - b. Project Manager: Select a PM from the drop down list
 - c. Category: Select a TDL Category from the drop down
 - i. TDL
 - ii. O&M
 - iii. Others
 - iv. PTO
 - v. User Support
 - vi. PMO
 - d. TDL Type: Select a TDL Type from the drop down list
 - i. Analysis
 - ii. Major Release
 - iii. Minor Release
 - iv. Upgrade
 - v. None
 - e. CLIN – A classification of the project used to report Project Financials.
 - i. Firm Fixed Price - includes O&M, Management and Admin, and User Support WBS codes
 - ii. System Enhancement - includes all of the TDL WBS codes

- iii. Labor Hours - includes IT Testing and e-Submission Support WBS Codes
 - iv. Other
 - f. WBS Code – Deloitte Project Tracking code – used in DTE
 - i. e.g. FDA00019.00.02.02.0224
(Note: Recommended that use the “.” and not “-“. This info is critical and is used to match the TDL when time entry is imported from Deloitte’s Time Tracking system DTE)
 - g. Task Order: Select one from the dropdown list
 - i. Task Order 1
 - ii. Task Order 2
 - iii. Task Order 3
 - h. Planned Date Range – Enter the planned start and end date for the TDL
 - i. Budgeted Hours – Enter o. This info will be recalculated when new resources are added to the project.
 - j. Budgeted Cost – Enter o. This info will be recalculated when new resources are added to the project.
8. Click “Save TDL” to save the new TDL entry
 9. When a new TDL is created – it is created with the status “New” and is in unapproved state. Use Edit TDL feature to modify them.
 10. Verify that the new TDL entry is shown either in the Kanban board or in the main Daily Operations “Search” screen.

6.2 EDIT AN EXISTING TDL

To modify an existing TDL please use the following instructions.

1. Go to TDL Details page by click on the TDL link (from either the Kanban page or from the Search Page)

2. Click “Edit” on the TDL Information panel on the TDL Details page.

Home / Kanban / TDL Details

TDL391- DST 2.00.00 0%

Planned Start: Jul 23, 2018
Planned Complete: Sep 27, 2019
Project Manager: Shah, Shilpa

WBS Code:
Budgeted Hours: 688
Planned Hours: 0
Actual Hours: 0

Status: New
Budgeted Cost: \$105,282.48
Planned Cost: \$0.00
Actual Cost: \$0.00

[Edit](#)

3. Modify the existing TDL Information

Edit TDL

Name Required field: TDL391- DST 2.00.00

Project Manager Required field: Shah, Shilpa

Category Required field: TDL

TDL Type Required field: Analysis

TDL Status Required field: New

CLIN Required field: System Enhancement

WBS Code: Enter WBS Code (45 chars limit)

Task Order Required field: Task Order 3

Planned Date Range Required field: 07/23/2018 - 09/27/2019

Budgeted Hours Required field: 688.00

Budgeted Cost Required field: \$ 105,282.48

Approved ☐

[Save TDL](#) [Cancel](#)

a. TDL Status: Select one of the values from the dropdown list

- i. New
- ii. Approved for LOE
- iii. Pending Approval
- iv. In Progress
- v. Completed
- vi. Closed

(Note: Adjusting the status will place the TDL on the correct swim lane in the Kanban board)

b. Approval: Check the flag to make TDL an active TDL.

(Note: Unless a TDL is approved, it won't be included in all reports)

4. Click "Save TDL" to update the TDL information

6.3 DELETE A TDL

Only a PMO role is allowed to delete TDL entries. It is highly recommended that this feature is used with caution. Once a TDL is deleted – all hours and cost information is lost.

1. Use the search screen to list the TDL
2. Use the “Delete” icon on the right side of the TDL search results view to delete the TDL
3. A prompt will appear to confirm the delete action

4. Click “Confirm” to delete the TDL

6.4 SEARCH FOR TDL

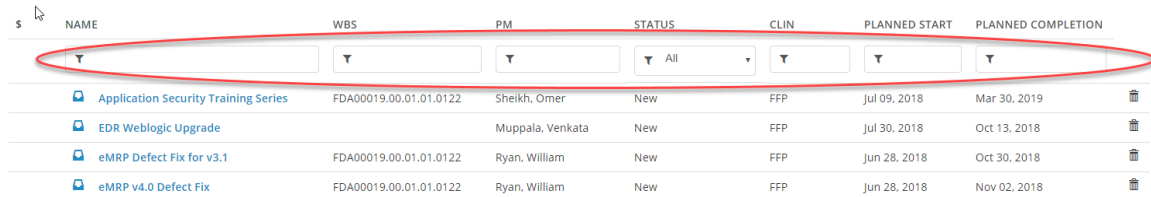

This is a core feature of TDLPro and is used to search for existing TDL entries in TDLPro. Use the “Search” item on the left navigation bar to arrive at the search screen

1. To search for any TDL from all Task orders, Leave “keyword” blank and Task Order selection blank and click Search. All TDL entries will be reported. (Note: A blank search for a PM role will display only the TDL entries from which they are the assigned PM)
2. To search for a TDL with a partial TDL name, enter the partial text in the “keyword” input box and click Search. Matching TDL entries will be report. (Note. A PM should use this feature to search for other TDLs for which they are not the assigned PM).
3. To list all TDLs under a particular Task Order, leave “keyword” blank and select the right Task Order from the drop down and click search

6.4.1 Search Filter

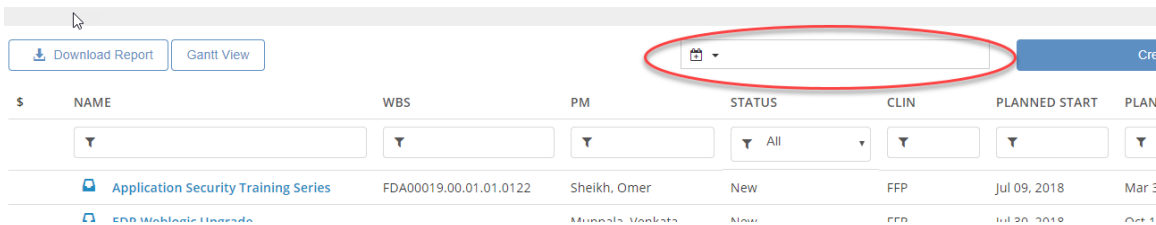

There are several column filters on the search results screen which can be used to narrow your post search results

The screenshot shows a table with columns: NAME, WBS, PM, STATUS, CLIN, PLANNED START, and PLANNED COMPLETION. Each column has a dropdown filter icon. A red oval highlights these filter icons.

NAME	WBS	PM	STATUS	CLIN	PLANNED START	PLANNED COMPLETION
Application Security Training Series	FDA00019.00.01.01.0122	Sheikh, Omer	New	FFP	Jul 09, 2018	Mar 30, 2019
EDR Weblogic Upgrade		Muppala, Venkata	New	FFP	Jul 30, 2018	Oct 13, 2018
eMRP Defect Fix for v3.1	FDA00019.00.01.01.0122	Ryan, William	New	FFP	Jun 28, 2018	Oct 30, 2018
eMRP v4.0 Defect Fix	FDA00019.00.01.01.0122	Ryan, William	New	FFP	Jun 28, 2018	Nov 02, 2018

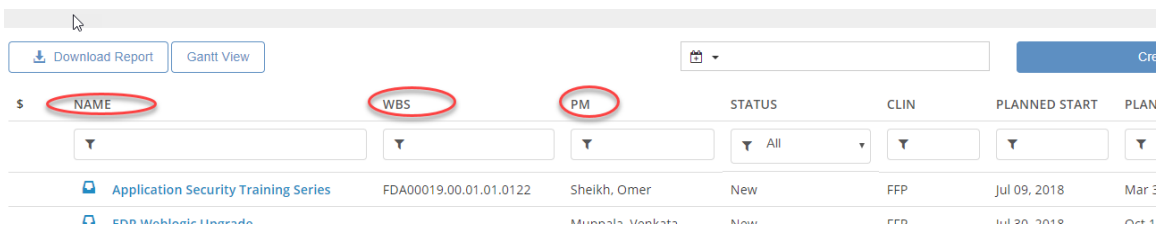

In addition there is data range filter to filter TDLs that fall within a given date range.

The screenshot shows the same table as above, but with a date range filter icon (calendar icon) highlighted by a red oval in the top right corner.

NAME	WBS	PM	STATUS	CLIN	PLANNED START	PLAN
Application Security Training Series	FDA00019.00.01.01.0122	Sheikh, Omer	New	FFP	Jul 09, 2018	Mar 30, 2019
EDR Weblogic Upgrade		Muppala, Venkata	New	FFP	Jul 30, 2018	Oct 13, 2018

(Note: to sort columns just click on the column header)

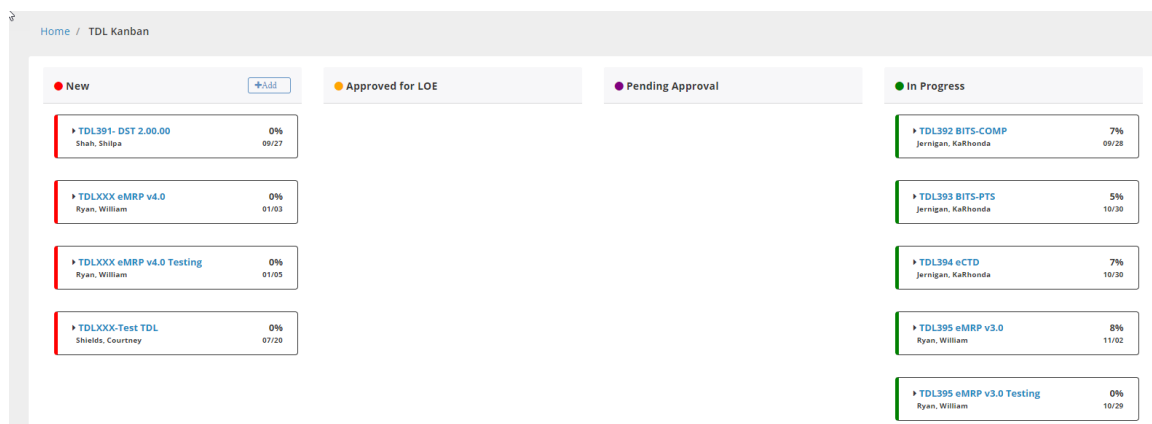

The screenshot shows the same table as above, but with the column headers NAME, WBS, and PM highlighted by red ovals.

NAME	WBS	PM	STATUS	CLIN	PLANNED START	PLAN
Application Security Training Series	FDA00019.00.01.01.0122	Sheikh, Omer	New	FFP	Jul 09, 2018	Mar 30, 2019
EDR Weblogic Upgrade		Muppala, Venkata	New	FFP	Jul 30, 2018	Oct 13, 2018

6.5 KANBAN BOARD

TDLPro provides a swim lane or a “Kanban Board” view of projects. This view is visible only for PM and PMO roles

The screenshot shows a Kanban Board with four columns: New, Approved for LOE, Pending Approval, and In Progress. Each column contains project cards with details like project name, status, and dates.

New	Approved for LOE	Pending Approval	In Progress
TDL391- DST 2.00.00 Shah, Shipra 0%			TDL392 BITS-COMP Jernigan, KaRhonda 7%
TDLXXX eMRP v4.0 Ryan, William 0%			TDL393 BITS-PTS Jernigan, KaRhonda 5%
TDLXXX eMRP v4.0 Testing Ryan, William 0%			TDL394 eCTD Jernigan, KaRhonda 7%
TDLXXX-Test TDL Shields, Courtney 0%			TDL395 eMRP v3.0 Ryan, William 8%
			TDL395 eMRP v3.0 Testing Ryan, William 0%

The view groups TDL Kanban cards by TDL status. TDL Kanban card displays TDL name, % completion, Project Manager and Project Planned Completion date

Note: % Completion = “Actual Cost”/”Planned Cost”

7 RESOURCE ALLOCATION

After a TDL is created, this section describes how to add Resources to the TDL.

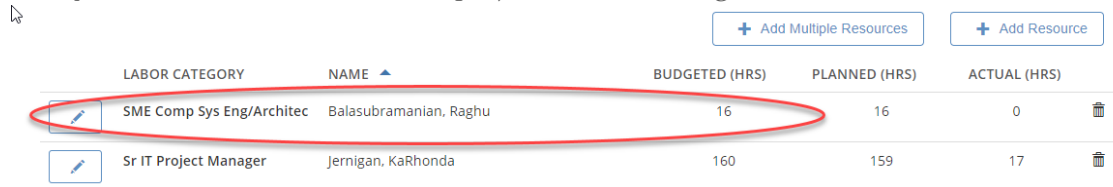

7.1 ADD RESOURCES TO TDL

7.1.1 Add a single resource

1. Navigate to TDL details page from Kanban board or from search screen
2. Click “Add Resource” button

A screenshot of the 'Add Resource' form. The top navigation bar includes 'Weekly Planner', 'Daily Planner', 'Plan Tasks', 'Milestones', and 'Burndown'. Below this is a tabbed interface with 'Resources', 'Notes', and 'Artifacts'. The 'Resources' tab is active, showing a table with columns: 'LABOR CATEGORY', 'NAME', 'BUDGETED (HRS)', 'PLANNED (HRS)', and 'ACTUAL (HRS)'. There are two buttons: '+ Add Multiple Resources' and '+ Add Resource' (circled in red). Below the table is a blue header 'Add Resource'. The form contains four required fields: 'Name' (text input), 'Labor Category' (dropdown), 'Hours' (text input), and 'Date Range' (calendar icon and date range 'June 18, 2018 - July 17, 2018'). At the bottom right are 'Save Resource' and 'Cancel' buttons.

3. Enter the following information
 - a. Name: Select the resource name from the dropdown list
 - b. Labor Category: This field is automatically filled by the system
 - c. Hours: Enter the budgeted hours for this resource
 - d. Date Range: (Non-functional for now. Ignore this)
4. Click “Save Resource” to add resource to the project.
5. Verify the resource is added to the project with the budgeted hours

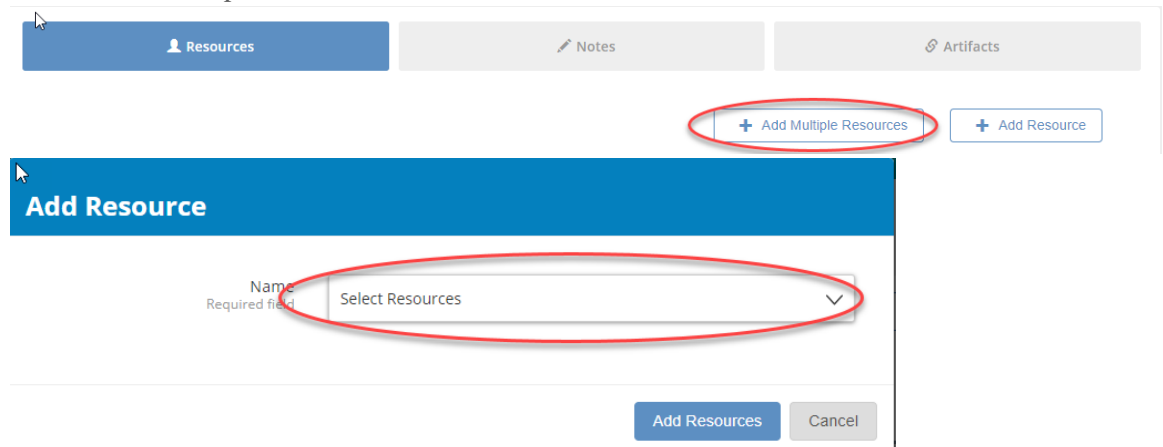

The screenshot shows a table with columns: LABOR CATEGORY, NAME, BUDGETED (HRS), PLANNED (HRS), and ACTUAL (HRS). The first row is highlighted with a red oval. The second row is also visible.

LABOR CATEGORY	NAME	BUDGETED (HRS)	PLANNED (HRS)	ACTUAL (HRS)
SME Comp Sys Eng/Architec	Balasubramanian, Raghu	16	16	0
Sr IT Project Manager	Jernigan, KaRhonda	160	159	17

7.1.2 Add multiple resources

TDLPro provides a feature to add multiple users to the project at once.

1. Navigate to TDL details page from Kanban board or from search screen
2. Click “Add Multiple Resources” button

The screenshot shows the 'Add Resource' form. At the top, there are three tabs: 'Resources' (selected), 'Notes', and 'Artifacts'. Below the tabs, there are two buttons: '+ Add Multiple Resources' (highlighted with a red oval) and '+ Add Resource'. The main form area has a blue header 'Add Resource'. Below the header, there is a 'Name' dropdown menu (highlighted with a red oval) with the text 'Select Resources'. At the bottom right, there are two buttons: 'Add Resources' and 'Cancel'.

3. Select resources from the dropdown and click “Add Resources” button to add multiple resources to the project.
4. Verify that the resources are added to the TDL. (Note: these resources are added with “o” budgeted hours. You need to edit budgeted hours to update to the correct hours.

7.2 EDIT BUDGETED HOURS

To update budgeted hours

1. Navigated TDL Details page

2. Review the list of the resources and click the “Pencil” icon on the list to edit the project resource information

7.4 ADD DAILY PLAN RESOURCE HOURS

This feature is available, if the PM plans to allocate resource hours on a daily basis. TDLPro saves resource plan hours on a daily basis. When PM allocates resources hours on a weekly basis, the system splits the weekly hours by 5 and spread it across daily. Daily Plan hours is useful when you want to allocate PTO or OOO action.

1. Navigate to TDL details page.

9 TIME SHEET

TDLPro provides ability to track actual hours spent on TDL and other CBER projects by the Deloitte CBER CSOM team. Subcontractors are expected to enter their timesheet in TDLPro whereas Deloitte resources enter their time in DTE.

9.1 CONTRACTORS TIME ENTRY

1. CBER CSOM Subcontractors can navigate to the “Timesheet” screen by clicking on “Time Sheet” item on the left navigation bar.

2. Enter time against the TDL or project on a daily basis and click “Save”

A screenshot of the 'My Timesheet' screen in TDLPro. The screen shows a table for entering time for various TDL projects. A red circle highlights the grid area for entering time, and another red circle highlights the 'Save' button at the bottom.

TDL	PLANNED	SUN 07/15	MON 07/16	TUE 07/17	WED 07/18	THU 07/19	FRI 07/20	SAT 07/21	TOTAL
